This is not fully correct. Saffronisation of dargah has happened, but the reason is something not known to vast majority. If you want to know the REAL reason, know it from the community of the followers of Satpanth., Read these two books called GharWaapsi (https://abkkpsamaj.org/gharwaapsi/ -English version is W.I.P.) and Satpanth Chhodo (https://abkkpsamaj.org/satpanthchhodo/). Both the books are in Gujarati Language.

Till date, it can be said that almost all researchers have not done enough research on the followers of Satpanth i.e., Kutch Kadva Patidar community. These books explain (along with plethora of solid proofs) what Satpanth religion is all about? What was the motive behind establishing a religion which had tenets of Hinduism and Islam? A religion which outwardly looks Hindu but is it a syncretism of Hindus and Muslim, or a true symbol of unity?... All these myths are busted in these books. A must read for everyone.

Find what Satpanth religion is all about and also know the real reason (nothing to do with BJP coming to power) behind the saffronisation of the dargah, (which anyways should not have been done).
